📁 Projects

PORTFOLIO

Building a **modern, responsive portfolio** using **HTML, CSS, React.js, and Tailwind CSS**. Focused on **dynamic user interactions, clean design, and seamless performance** across all devices.

E-COMMERCE WEBSITE

"Our E-Commerce website, built with React, offers a seamless shopping experience with a responsive design, dynamic product displays, and secure payment integration." Websites design is going on (it is an react project).

MEPCO Company Website

Developed a responsive company website using **HTML, CSS, and JavaScript**, featuring an interactive home page, service details, and contact form to enhance the company's online presence and user engagement.

Profenaa Charitable Trust Website

Designed and developed a responsive website using **HTML, CSS, and JavaScript** to showcase charity initiatives, share program details, and provide contact/accessibility features for donors and beneficiaries.

CRUD Application

Built a backend application using **Java (Spring Boot)** with **SQL database** integration to perform full **CRUD operations**. Tested REST APIs with **Postman** to ensure reliability and accuracy for managing charity-related data.
